25X1B	1.	Two biplanes, one tank truck, and two trucks were stationed at the Bredow (N 53/Z 55) improvised airfield on 15 September 1950. The take-off strip was marked off by red flags. A radio trailer and, on its side, a box with a rod antenna, about 4 meters high, were on the edge of the field. Three soldiers were lying in front of the box. Left the field. The two biplanes were used for practice flights. *	
25X1A 25X1A 25X1B		Comment. Another source previously reported that the field was used by biplanes. See From previously reported motor it is inferred that the aircraft are assigned to the ground attack regiments stationed in Doeberitz. See	1 A
